

Bonnie Bryant

Director, Fleet Production

Bonnie Bryant, previously General Manager of Plant Operations at Entergy's River Bend Nuclear Station (River Bend), is currently on a rotational assignment to Fleet Production in the Entergy Nuclear outage group. During her tenure at River Bend, the nuclear power plant experienced a record operating run and was rated as exemplary by external stakeholders. Joining Entergy in July 2019, Bonnie also has served as the General Manager of Plant Operations at Entergy's Indian Point location.

Bonnie is a 30-year veteran in the nuclear power industry, beginning her career at the Seabrook Nuclear Power Station in 1993. During her career, she has served as a Chemist, Regulatory Analyst, Senior Reactor Operator, Assistant Operations Manager, Work Management Director, Corporate Functional Manager of Operations, and General Manager. She also completed an 18-month rotation as a Senior Operations Evaluator at the Institute of Nuclear Power Operations (INPO).

Bonnie received her Senior Reactor Operator License in 2007. She holds a Master of Business Administration degree from Southern New Hampshire University and a Bachelor of Science degree in Chemistry from Siena College. Bonnie completed the Senior Nuclear Plant Management Course at INPO in 2019 and is a graduate of the Nuclear Executives of Tomorrow (NEXT) Women in Nuclear Leadership Program. She is also a founding member of the U.S. Women in Nuclear organization.
